

HCT BSB4 OMNI BARCODE SCANNER

VALUE OMNI SCANNER

- Quick and easy installation
- Ideal for high volume scanning
- Reads codes in any direction
- USB Interface; just plug and play
- Tilt adjustable

The HCT BSB4 Omni-directional Barcode Scanner is ideal for retail outlets with high volumes of scanning. It allows barcodes to be quickly scanned by passing them in front of the scanning laser. There's no need to line the barcode up as the scanner can read from top to bottom or left to right as well as any direction in between.

USB powered, the scanner connects to any PC or Mac and is quick and easy to set up. The adjustable stand allows the scanner to be tilted to a more comfortable angle, while the scanner is also lightweight enough to be picked up and used handheld if needed.

Capable of reading all common barcode types, the HCT BSB4 Barcode Scanner is great value and reliable.

SPECIFICATIONS

Scan Type: Omni-directional 20 lines
Light Source: 650nm visible laser diode
Scan Rate: 1120 times per second
Scan Angle: Swing angle 360°, Inclination angle 60°, Elevation angle 60°
Depth Of Field: 0 to 250mm depending on barcode resolution
Drop Resistance Capability: 1m drop on concrete surface
Laser Working Hours: 10,000 hours
Decoding Capability: UPC/EAN/JAN, Code 39 Full ASCII, Code128 Full ASCII, Codabar, Code2 of 5, Code93, Code11, MSI Plessey, Trioptic, GS1 DataBar, Telepen
Dustproof Seal to prevent being eroded by airborne dust
Dimensions: 180x130x110mm
Net Weight: 460g
Related Regulation: CE, FCC, RoHS, ClassI, CDRH CLASS II
